

Stockton: Two Bridge Circular

Start: Municipal Buildings

Distance: 2.1 miles/3.4 kilometres

1 From Municipal Buildings turn left to go past the library then turn left into Thistle Green. Go to the end of this road and cross over Bishop Street, head towards the Ecclesiastes foot bridge to cross the Riverside Road. Once across the road turn right and follow the riverbank (with the river on your left) until you reach the Millenium Footbridge across the River Tees.

2 Cross this bridge and continue along University Boulevard, going straight ahead at the roundabout. About 100m after the roundabout the road crosses over a canal, and immediately after the canal there are steps to your right which double back, around and down to the canal.

3 Follow the canal towards the river and follow the riverbank towards the Infinity Bridge.

4 Cross the river using the Infinity Bridge then turn left and head back towards Stockton. Follow the riverside path until it goes under the Princess Diana Bridge then cross the car park and head back towards the Ecclesiastes foot-bridge. Cross this bridge and turn right to retrace your route back to Municipal Buildings.

Stockton: Two Bridge Circular

A moderate walk of
2.1 miles/3.4 kilometres
